

Supplements play an important role in sustaining good health and preventing many illnesses and diseases. Yet, it is sometimes difficult to know which ones are best for you. High quality supplements are now for sale here at LoCicero Medical Group.

They are carefully manufactured to ensure easy ingestion and maximum benefit and are designed to supplement proper diet and exercise. Please ask one of the providers or front desk staff for more information.

Be sure to read all labels and instructions carefully. Following the recommended dosage is important to attaining the results you expect. Most supplements are not covered by insurance.

When you are ready for a refill, just stop by the office or check our website and reorder online.

Weight Management Supplements

Calcium Pyruvate may accelerate fat loss by increasing cellular respiration. 120 Veggie Caps: \$25

L-Carnitine may be useful for individuals who wish to support heart muscle function and skeletal muscle performance. It allows fat to be transported into the mitochondria for energy and may promote weight loss by improving fat metabolism. 60 Capsules: \$17.50

Gly-Sea-Max™ with Slendesta™ may be a useful dietary supplement for those who wish to support their weight control efforts. It supports satiety or a feeling of fullness after a meal. Gly-Sea-Max™ also supports a

weight control * anti-aging * energy enhancement * better sleep * improved immunity

decrease in the normal rise in blood glucose seen after a meal. 60 Vegetarian Capsules: \$72

CLA (Conjugated Linoleic Acid) may be helpful to those who wish to support their own weight loss efforts. It is thought to be an effective modulator of metabolism, reducing body fat and increasing muscle mass. 60 Soft gels: \$29

Cardiovascular Health and Antioxidants

Coenzyme Q-10 with L-Taurine is thought to be a useful nutritional adjunct for those whose requirements are not met through biosynthesis of the molecule or for those who have difficulty with absorption of fat-soluble nutrients. It is a naturally-occurring antioxidant. 60 Soft gels: \$24

Balance™ Plus, Omega 3-6-9 is designed for those who wish to increase their intake of nutritionally important fatty acids. 90 Soft gels: \$20

Natural Vitamin E Complex is for those who wish to increase their daily intake of vitamin E in its potent, natural form. 100 Soft gels \$15.50

ALA (Alpha-Lipoic Acid) may be a beneficial dietary supplement for those concerned about a more complete antioxidant defense system and maintaining proper glucose metabolism. 60 Tablets: \$16.50

Important to Your Health

Green Tea Extract is for those wishing to supplement their diet with this well-known herb. 60 Capsules: \$8

Orange Chew Vitamin C are important for immunity support and is among the most powerful antioxidants in humans. 100 Chewable Tablets: \$8.50

Ultrazyme™ Digestive Enzyme Support may be useful for those who wish to assist in the healthy functioning of fat, protein, and carbohydrate digestion. 60 Tablets: \$13

Stress-B-Plus, B Complex is useful for energy, sports and fitness, as well as for stress control. They are water-soluble and not stored in the body, so the body needs an adequate supply on a daily basis. 90 Tablets: \$12.50

Seditol® Plus is for individuals wish to support normal sleep patterns and help reduce stress-induced sleeplessness. 30 Capsules: \$21

Black Cohosh may support those who wish to moderate fluctuating hormone levels during menopause. 60 Capsules: \$16

Cal Chew, Calcium is an easily consumed source of calcium and vitamin D, helpful in maintaining healthy bones and reducing the risk of osteoporosis. 250 Chewable Tablets: \$10.50

Chromium Picolinate is an essential trace mineral that supports healthy blood sugar levels. Assists in moderating blood sugar metabolism. 100 Capsules: \$10.50

Glucosamine + MSM® Forte™ is useful for those who wish to support the structure and function of the body's connective tissues such as cartilage, bone, tendons, ligaments, and skin. 60 Capsules: 421.50

Basic Preventive 1 Multi-Vitamin is ideal for those with vitamin, mineral and trace element deficiencies due to suboptimal dietary intake, age and lifestyle habits. 180 Tablets: \$32
